

Seminole County Fire Department Information Bulletin #23-043

To: All Field Personnel

From: Operations

Date: May 31st, 2023

Title: Structure Fire Response Changes

Effective June 1st, 2023 at 0800, the response matrix for units dispatched to Structure Fire Residential, Structure Fire Commercial, and Structure Fire Commercial with Hazardous Materials will be changing. An overview and table displaying the changes are below:

Structure Fire Residential

- Squad 2 removed
- 1 Aerial unit added

Structure Fire Commercial / Structure Fire Commercial with Hazmat

- Squad 2 removed
- 1 Aerial and 1 Tower added

	Base Dispatch (Hydrant areas)	Hydrant over 1000ft
Structure Fire comm w/HAZ	2T 1H 3E 2R 1RIT 2BC	3TK WSO
Structure Fire commercial	2T 3E 2R 1RIT 2BC	3TK WSO
Structure Fire residential	1T 3E 2R 1RIT 2BC	3TK WSO

Hydrants over 1000ft reference the driving distance between the hydrant and the nearest street associated with the address. Unnamed streets in apartment complexes are considered, but driveways are not considered in the distance calculation. Three (3) Tankers and a Water Supply Officer are added to all addresses with the nearest fire hydrant greater than 1,000 feet.

For these call types, Squad 2 will now be responsible to self-assign over the radio on 49-Alpha.
